

# Harendra Sharma

Senior Frontend Engineer | JavaScript | React.js | React Native | TypeScript | Microfrontends | Scalable Web Applications  
Location: Agra, India | Phone: +91-9557555443 | Email: [Harendra.jagariya@gmail.com](mailto:Harendra.jagariya@gmail.com) | [LinkedIn](#)

## PROFILE SUMMARY

Results-oriented Senior Software Engineer with **7+ years** of experience delivering high-performance web and mobile applications using **React.js, React Native, TypeScript, and Node.js**. Proven expertise in **Microfrontend Architecture, Frontend System Design, and Test Automation**. Successfully led global teams to modernize platforms across industries including retail, ERP, and automation. Delivered enterprise-grade solutions for **Burberry, Atlassian, and Sherwin-Williams**, ensuring accessibility, performance, and scalability. Passionate about **clean code, agile delivery**, and optimizing **UI/UX** for maximum user impact.

## KEY MANAGERIAL SKILLS

Leadership | Communication | Problem-Solving | Decision-Making | Task Prioritization | Team Collaboration | Adaptability | Innovative Thinking | Technical Proficiency | Time Management | Critical Thinking | Conflict Resolution | Client Relationship Management | Mentorship | Quality Assurance | Strategic Planning | Result Orientation | Analytical Skills | Attention to Detail

## TOOLS & TECHNOLOGIES

**Programming Languages:** JavaScript, Java | **Web Technologies:** React, React Native, Node.js | **Backend Framework:** Java Spring Boot  
**Database Management:** MongoDB | **State Management:** Redux | **Web Development:** HTML, CSS | **Cloud Services:** Basic AWS  
**Testing:** End-to-End Testing | **Security:** Web Security Best Practices | **MERN Stacks:** MongoDB, Express.js, React, Node.js

## PROFESSIONAL EXPERIENCE

Senior Software Engineer | EPAM Systems Bengaluru, India | Jul '23 – Present

Client: **Burberry – CSHUB Modernization (Jul 2023 – Jun 2024)**

- Led development of modular, scalable frontends using **React** and **TypeScript** across CMS, DAM, and Commerce systems.
- Migrated legacy workflows from **Oracle ATG** to a modern microservices architecture, improving maintainability.
- Delivered robust test coverage (**90%+**) for critical user flows using **Jest** and **Cypress**.
- Implemented key performance optimizations, reducing first paint time by approximately **30%**.

Client: **Atlassian – JIRA Platform Automation (Aug 2024 – Oct 2024)**

- Built a UI automation framework using **Playwright**, tailored for JIRA's complex UI workflows.
- Integrated automation into **CI/CD pipelines**, accelerating regression cycles and cutting QA time by **40%**.
- Championed reusable testing patterns and libraries, improving test consistency across teams.

Client: **Sherwin-Williams – ERP System (Nov 2024 – Jul 2025)**

- Engineered modular ERP components using **React** and a **microfrontend architecture** to streamline large-scale development.
- Integrated with backend APIs to support order, inventory, and customer modules, ensuring **WCAG accessibility compliance**.
- Developed and documented **shared UI components** within a central design system to improve cross-team efficiency.
- Maintained **90%+ automated test coverage**, upholding strong quality standards across deliverables.

**Project:** Lead React Native Developer - Banking Application | **Client:** Yes bank | **Technology:** React, React Native, and Java

#### Development Oversight, Team Guidance, Code Review and Assurance

- Directed the **React Native codebase development**, implementing features, integrating APIs, and managing state solutions
- Defined **application architecture**, ensuring scalability, maintainability, and code reusability
- Collaborated on **establishing best practices** and **coding standards**
- Provided technical leadership to React Native developers. Assign tasks, **monitor progress & mentor developers** for project success
- Conducted **meticulous code reviews**, maintain quality, identify bugs, and **enforce best practices** and **security guidelines**
- Implemented **automated testing strategies** for increased application reliability

#### Performance Optimization, Security and Compliance, Backend Integration, Release Management

- Optimized React Native application performance by analysing and improving rendering speed, network requests & memory usage Utilized **performance monitoring tools** to address bottlenecks
- Ensured **banking application compliance** with security standards. Implement secure coding practices, conduct security audits, and collaborated with security teams to address vulnerabilities
- Collaborated with **backend developers** to integrate frontend with banking application backend systems, covering APIs, databases, and authentication mechanisms
- **Coordinated with the DevOps team** for planned and seamless release cycles, ensuring smooth deployments, monitoring & troubleshooting
- Create and **maintain technical documentation**, including architecture diagrams, API documentation, and coding guidelines
- Document custom components and complex logic **implemented in the React Native application**

---

#### Software Developer | Iginfosystem Pvt. Ltd.

Gurgaon, Apr '20 — Mar '21

**Project & Client:** Shivalik Judicial Academy and Medhakshetra | **Technology:** React and React Native, node with mongo db, frond end

#### Project Handling, Feature Implementation, Process Enhancement

- **Web & Mobile Developer** in a Product-Based Environment
- **Translated customer requirements** into written use cases, ensuring effective communication
- Demonstrated a proven track record in **implementing crucial features** such as online class streaming, class recording, player integration, and live session notifications
- Designed **reusable and reliable code**, contributing significantly to project success
- Introduced **agile methodologies** and development best practices, **fostering collaboration**, and improving the efficiency and quality of deliverables

#### Collaborative Planning

- Collaborated with project managers to **select ambitious yet realistic coding milestones** for pre-release software projects
- Ensured **effective planning**, leading to the timely delivery of high-quality software

---

#### Software Developer | Techify Solutions Pvt. Ltd.

Ahmedabad, India | Dec '19 — Apr '20

**Project:** JK Tyre Projects (CRM) | **Client:** JK | **Technology:** MERN (MongoDB, Express.js, React, Node.js)

#### Development Contributions, Modernization and Enhancement

- Spearheaded **frontend and backend development** for JKTyre Advantages & Baadshah as a React & Node developer within a dynamic team
- Optimized **user interface performance** by architecting efficient REST calls using React
- Engineered web applications with React, implementing innovative industry best practices for **interface design, endorsed by Facebook**
- Revolutionized **legacy code bases**, bringing them in line with current development standards
- Elevated overall application functionality, ensuring a **seamless user experience**

**Project:** Study24x7.com | **Technology:** MERN (MongoDB, Express.js, React, Node.js) & MEAN (MongoDB, Express.js, Angular, Node.js)

**Feature Development and User Experience Enhancement**

- Implemented **interactive functionalities**, particularly in course creation
- Played a key role in **enhancing user experience** at Study24x7.com through feature development
- Proactively acquired & applied new skills to **boost work efficiency** while ensuring high-quality results, causal to the overall success of projects

**Customer Satisfaction and Loyalty Building, Flexibility and Adaptability, Front-End Developer Expertise**

- Notably **improved customer satisfaction** through prompt issue resolution
- Focused on **fostering positive user experiences**, resulting in increased customer loyalty
- Demonstrated flexibility by **willingly adapting working hours** to meet project demands
- Ensured timely and **successful outcomes**, showcasing adaptability in a dynamic work environment
- Experienced **Front-End Developer** with a strong skill set in feature development
- Proficient in **addressing customer satisfaction concerns** and demonstrating adaptability

**EDUCATION**

---

- **MCA** | Graphic Era University, Dehradun, India | 2018
